

# Site Plan

Please draw items 1-6 (see example) in the box below and submit with the building permit for review. Site plan to be used for structures 749 SQFT or less. Structures 750 SQFT or more and on less than 5 acres, require plot plan prepared by a licensed surveyor or engineer.

1. All recorded easements.
2. Approximate dimensions of lot.
3. Height of structure over one story.
4. Location of all existing and proposed structures.
5. Location of all service connections for utilities to buildings.
6. Distance of proposed structures from side, rear, and front property lines.

Example:
